

AGRICULTURE, FORESTRY AND FISHERIES (農林水産業)

Ishikawa Prefecture is surrounded by the Sea of Japan, and 80% of its area is covered by forests and farmland.

The agriculture, forestry, and fisheries industries use these natural resources to provide rice and seafood to the people, and also play an important role in the management of forest and water resources.

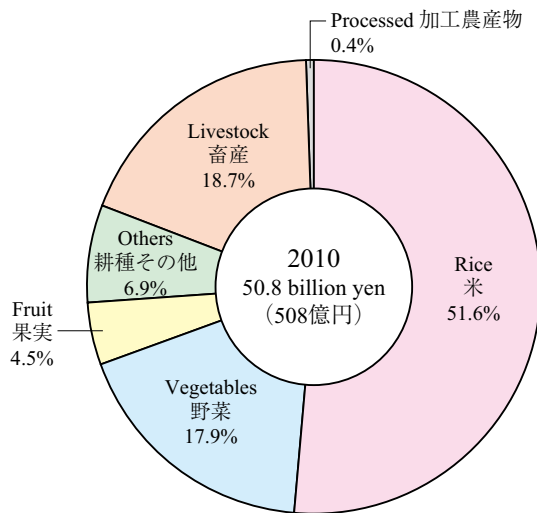

Ishikawa Prefecture is endeavoring to secure and develop strong leaders, as well as to promote the provision of high-valued and marketable agriculture, forestry, and fisheries goods. The prefecture also supports local and prefecture-wide measures taken to preserve and stimulate multifunctionalism in the agriculture, forestry, and fisheries industries.

石川県は、周囲を日本海に囲まれ、県土の8割を森林と農地が占めています。

農林水産業は、これらを活用し、米や水産物等の食料供給をはじめ、治山や水源かん養といった役割を担っています。

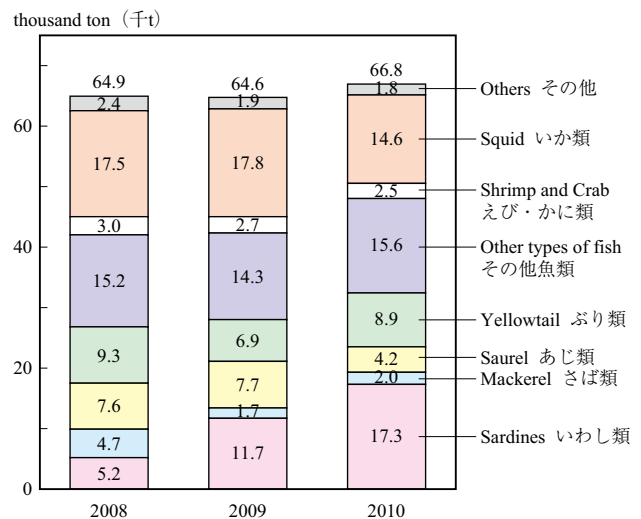

県では、「力強い」担い手の育成・確保や、付加価値の高い「売れる」農林水産物の供給を推進するとともに、地域や県民全体での、農林水産業の多面的機能の保全・発揮に向けた取組みを支援しています。
